TO WHOM IT MAY CONCERN

Certification of epoxy resin coating in the internal of floor standing hot water tanks

This is to certify that floor standing hot water tanks of more than 1000 litres with detachable exchangers are internally coated for protection with epoxy resin, which in turn is supplied from the company Soficor Mader. Product code is Cepox P05 95 and the material is certified from WRAS (Water Regulations Advisory Scheme)

Yours sincerely

Elena Stylianidou
Quality Control Manager
